OXYLIVING

ADVANCED OXYGEN TECHNOLOGY

Every Breath Is Life.

Precision-engineered oxygen wellness capsules — where advanced engineering meets the calm science of breathing better.

THE PHILOSOPHY

Oxygen is the quietest form of vitality.

Every cell in the body runs on it. OXYLIVING was built on a simple conviction — that a calmer, more oxygen-rich breath is one of the most powerful, and most overlooked, foundations of well-being.

Engineered in Türkiye.

OXYLIVING is a brand of **Tesan Global Engineering**, built in Kocaeli — the industrial heart of Türkiye. With a strong engineering infrastructure and advanced production capability, we design and manufacture next-generation oxygen systems for wellness environments.

Our mission is to deliver safe, efficient and high-performance technology — combining innovation, precision engineering and modern design to meet international standards.

01 ENGINEERING

In-house design & precision manufacturing.

02 SAFETY

Dual-sensor monitoring & redundant systems.

03 INNOVATION

Modular, upgradeable architecture.

What happens inside.

Inside an OXYLIVING capsule you breathe enriched oxygen within a gently pressurised environment — an optimised space designed to support relaxation, recovery and overall wellness.

1.0 ATA

STEP IN

Settle into the sealed capsule at normal ambient pressure.

2.0 ATA

PRESSURISE

Pressure rises gently and automatically to the preset level.

O₂

BREATHE

Enriched oxygen dissolves more efficiently, supporting circulation.

The result is a calm, enveloping environment that supports the body's natural processes — promoting balance, comfort and vitality, one breath at a time.

A cabin, not a chamber.

Every surface a guest touches is considered. Hand-finished quilted upholstery, adjustable seating and calm ambient light turn a technical system into a place people want to return to.

SMART DISPLAY

Up to a 40-inch in-cabin monitor for television, film and music.

ADAPTIVE SEATING

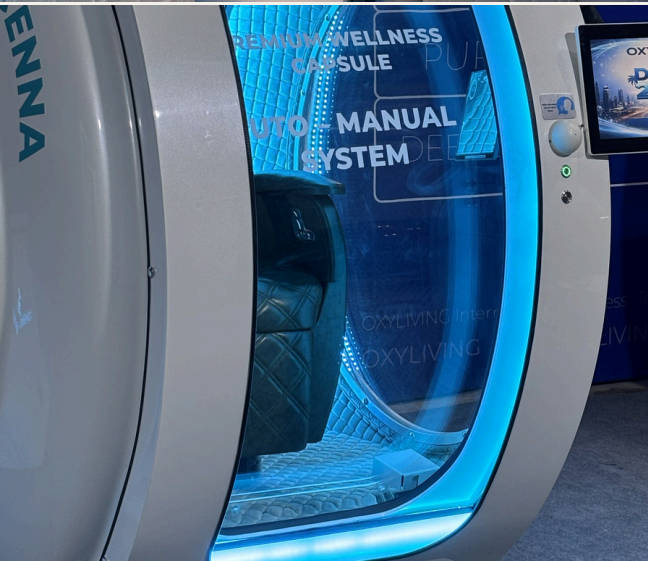

Auto-adjustable seats, or a full bed-style layout on request.

AMBIENT LIGHT

Tunable LED lighting — and optional nanometer light technology.

FINE MATERIALS

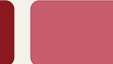

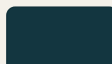

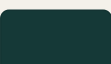

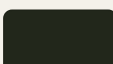

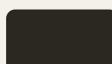

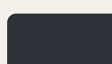

Premium quilted textiles, fully customizable in colour and finish.

Any colour on the outside.

SURFACE FINISH

Every capsule shell can be finished in the full **RAL Classic palette** — in high-gloss or matte lacquer. Custom exterior graphics available on request.
